

Fenix™ E15

Fenix E15 is a universal EDC flashlight. Offering 3 brightness levels, it can meet various requirements of the brightness and the runtime perfectly. The portable and compact design makes it extremely convenient to be carried. It performs well in the cold areas due to the anti-freezing lithium battery. Thanks to the advanced constant brightness technology and waterproofing to the IPX-8 Standard, E15 must be able to satisfy your needs in different outdoor conditions and in emergency.

Technical Parameters

ANSI/FSC	Mid	Low	High
 OUTPUT	75 LUMENS	10 LUMENS	140 LUMENS
 RUNTIME	4h 16min	30h	1h 51min
 DISTANCE	89m		
 INTENSITY	1986cd		
 IMPACT RESISTANCE	1m		
 WATERPROOF	IPX-8  underwater 2m		
Extra FUNCTION			
ACCESSORIES	Key chain and spare o-ring		

- ⊙ Cree XP-E LED with a lifespan of 50,000 hours
- ⊙ Uses one 3V CR123A Lithium battery
- ⊙ 59.6mm (Length) x 19.7mm (Diameter)
- ⊙ 23-gram weight (excluding battery)
- ⊙ Digitally regulated output - maintains constant brightness
- ⊙ Reverse polarity protection, to protect from improper battery installation

- ⦿ Reliable twisty switch
- ⦿ Capable of standing up securely on a flat surface to serve as a candle
- ⦿ Made of durable aircraft-grade aluminum
- ⦿ Premium Type III hard-anodized anti-abrasive finish
- ⦿ High-efficiency total reflection lens

Notice: The above-mentioned parameters (tested with high-quality CR123A Lithium battery in Lab) are approximate and may vary between flashlights, batteries and environments.

Operation Instruction

Screw the light head to turn it on and unscrew it to turn it off.

Turn off the light and turn it on again within two seconds, it will select the brightness level in the order of Mid→Low→High→Cycle.

If the off-time is over two seconds, when turn on again, it will enter into the Mid brightness level.

Battery Specifications

Type	Dimensions	Nominal voltage	Usability	
Non-rechargeable Battery (Lithium)	CR123A	3V	Usable	✓
Rechargeable Battery (Li-ion)	16340	3.7V	Banned	✗

Battery Replacement

Unscrew the light head to put in the battery with the anode (+) toward the light head, screw the light head back on to test.

Usage and Maintenance

- ⦿ Please don't disassemble the sealed head, doing so can cause damage to the flashlight and will void the warranty.
- ⦿ Please use battery of high quality, and take out the battery if you do not use the flashlight for a long time, or the flashlight could be damaged by electrolyte leakage or battery explosion which is caused by low quality battery.
- ⦿ The o-ring may be worn out after using for a long time. If it happens, please replace the o-ring with a new one to keep the flashlight properly sealed against water.
- ⦿ Please clean the contacts of your light from time to time, especially if the light flickers or doesn't light up. There may be several reasons for a flickering or not working light:

Reason A: The battery needs replacing.

Solution: Replace battery (Please confirm the correct installation of anode and cathode).

Reason B: The threads PCB board contact or other contacts are dirty.

Solution: Clean the contact points with an alcohol soaked cotton swab.

If the above methods don't work, please contact your distributor and refer to the warranty policy.

Notice: The routine cleaning video can be watched and downloaded through Fenix official website, please log onto the service channel->'maintenance for light'.

Product Warranty

We will replace products afflicted with manufacturing defects within 15 days of purchase and repair a light free of charge within 24 months of purchase if problems develop with normal use; if repair is required after 24 months from the date of purchase, we will charge for parts. The total repair fee is dictated by the cost of the replaced materials.

Warranty Card Registration

We kindly suggest that you register your guarantee card on the official website of Fenixlight Limited. You can get an extra six-month warranty period once you have successfully registered. What's more, you could take part in the lottery of questionnaire at the same time.

Warning

E15 is a high-intensity lighting device and capable of causing eye damage, avoid shining the light directly into the eyes.
